# About the New Zealand Land Treatment Collective Conference

The New Zealand Land Treatment Collective Conference will be held at the Distinction Coachman Hotel, Palmerston North from the 30 March - 2 April 2020.

The New Zealand Land Treatment Collective (NZLTC) was established in 1989 to support research into the treatment of wastes and waste products by land application, by providing its members with up-to-date information on land treatment technology, research and information.

The NZLTC works to improve communication to all stakeholders in the waste management industry and to help fund research into developing and improving land treatment technology in New Zealand.

In 2019 the conference celebrated 30 years since the Collective formed and is the only conference of its kind in Australasia.

The conference occurs annually and is known as:

- a key event to discuss new land treatment technologies and current issues and challenges facing the industry
- an excellent 'boutique' conference where networking opportunities are plentiful amongst a small conference delegation.
